

Directions for April 16th Vaccine Clinic

This clinic is being hosted by OHI in collaboration with Penobscot Community Health Center and the Department of Health and Human Services. OHI is providing the location for the clinic and PCHC is providing the pharmacy staff to administer the vaccine and address any concerns during the observation period.

This will be a **drive thru clinic**. Please remain in your vehicle unless you are asked to get out of your car. There will be volunteers assisting with the flow of traffic. If you need to get out of your car, please let one of the volunteers know (they will be wearing safety vests).

After the vaccine is administered participants must wait in the designated observation area for the length of time indicated by the vaccinator (typically between 15-30 minutes depending upon medical history). There will be volunteers monitoring the observation area (they will be wearing safety vests). Please be prepared to back into the parking space where you will complete your observation period. If you experience any symptoms of concern during your observation period, honk your horn and flash your lights. The observation monitor(s) will get one of the pharmacy staff to address your concerns. Please review the Emergency Use Authorization form for the vaccine you will be getting. The Emergency Use Authorization form outlines risk and side effects to look for during your observation period.

In the interest of keeping everyone as comfortable as possible, please have all members of your party use the rest room prior to leaving for the clinic. Should someone in your vehicle need to use a restroom during the clinic, please flag down one of the volunteers. You will be escorted into the OHI office building to use the restroom.

The clinic will be held at OHI's offices at:

203 Maine Avenue

Bangor Maine 04401

Telephone: 207-848-5804
